

Instructions

If you would like us to appraise your equipment, please send us an email detailing what you have (Make and Model), cosmetic condition (rough, fair, good, very good, excellent, mint), working condition, how many hours on the unit, what accessories are included, etc.

Please be as detailed as possible and include your name, company name, email address, phone and fax numbers, and the best time to reach you.

Please indicate the type of appraisal you desire:

- Replacement Value (for insurance purposes)
- Current Market Value (what you could sell it for yourself)
- Liquidation Value (what a dealer -like us- would pay for the item)

Our fee for appraisals can vary depending on age and uniqueness of the product. The more obscure the product, the more research is required to determine its value. But as a general rule, our rate is \$100 for up to ten (10) items and \$5 per additional item above ten. Shortly after receiving your list we will contact you with a quote.

If you are interested in our FREE listing service, please use our LISTING page.
